

NFDI4ing News 2/2022

Welcome to the second issue of the NFDI4ing News providing updates and highlights from NFDI4ing, the consortium representing the engineering sciences in the German National Research Data Infrastructure initiative (Nationale Forschungsdateninfrastruktur - NFDI)!

We want to apologise for the technical difficulties surrounding the launch of the first issue. All problems should now be fixed. Unfortunately, we had to reset our subscriber list after sending the first issue. To avoid you having to repeat the subscription process, we added members of NFDI4ing governing bodies and previously confirmed subscribers by hand.

If you receive this email, you are now subscribed to receive further issues of the NFDI4ing News. If we made a mistake and you don't want to receive further issues, you can contact us directly at contact@nfdi4ing.de or use the "[Unsubscribe](#)" link at the bottom of this email. We apologise for the inconvenience.
